TO UNION MEN.

THE WORK BEFORE THEM.

At a meeting of the Republican Executive County Committee, at Headquarters, on Saturday, it was, on motion of John H. Stewart, Esq.,

RESOLVED, That we urge upon our political friends in the cities of Pittsburgh and Allegheny, and throughout the county, to devote the coming week exclusively to the perfecting of their party organizations, the appointment of Block and Vigilance Committees in every Ward, Borough, Township and Election Precinct, the appointment of Challengers at polls, and such other matters of detail as will insure an overwhelming Republican triumph.

Let every patriotic citizen, at this critical hour, at whatever personal sacrifice, give one week of labor to the final preparations for the great struggle now so closely at hand.

Headquarters open at all hours for distribution of tickets, posters for the polls, &c., &c.

JOHN W. RIDDELL,
Chairman County Committee.
T. M. BAYNE, Secretary.

LOOK OUT FOR SPURIOUS TICKETS.

Tickets resembling the Republican tickets in appearance, with the name of JOHN W. GEARY at the head, and all the rest Democratic, and others with the name of J. BOWMAN SWEITZER substituted for that of J. K. MOORHEAD, are in circulation. Let these contemptible attempts at fraud be carefully watched in every district.

Slips, with J. BOWMAN SWEITZER'S name, and gummed on the back, like stamps, have been prepared. Let them, also, be watched.

GATHER THEM IN.

Let our friends bear this in mind to-morrow; that one man who is quietly and diligently seeking out and bringing to the polls men who might otherwise not be there, is doing more and better service to his party and his country than a score who only stand about the places of voting discussing the great issues of the day. As a general thing men go to the polls with their minds made up, and are not likely to change them then and there; but if a man, whose views are already correct, stays at home, a vote is lost.

When we call to mind the largely increased vote usually given at presidential elections, as compared with preceding State elections, we can estimate how much can be made by gathering in the remote, the infirm and the careless voters.

GENERAL EDWARD M. LEE.

We have had the pleasure of listening to a powerful address, abounding in sound argument and toned in the holiest spirit of patriotism, delivered by the brave and fearless representative of loyal Connecticut, General EDWARD M. LEE. Although comparatively young in years, this ardent patriot has succeeded in building for himself in Pennsylvania a reputation for golden oratory and strong reasoning powers which will live long in our memories. He at once grapples the grave questions at issue, and giant-like disposes of them in such a manner as to impress upon all loyal hearts the great and imperative necessity of sustaining a loyal Congress that the people themselves may be sustained. To him we have reasons to be grateful. He has labored assiduously for the Union cause in our State, and his deep and burning eloquence, gushing forth from a soul which draws inspiration from the knowledge of duty well performed on the field of battle, cannot prove fruitless. We envy patriotic little Connecticut the possession of the soldier orator, who carries with him from the old Keystone State the best wishes and deepest gratitude of her loyal citizens.

PETROLEUM V. NASBY, in one of his latest letters, thus learnedly discourseth of the "nigger." The paragraph is full of democratic sentiment—the only one they have left—and ought to be widely circulated, especially in COVODE'S district, where pictures of "niggers" are the only democratic documents:

DO YOU WANT TO MARRY A NIGGER?—This ishoo is agin before yoo. Are yoo in favor of elevatin the Afrikin to a posishen where he kin be yoor ekal or perhaps yoor sooperior? That ishoo is agin before you in yoor decision, only the danger to yoo is increased. The matter has become threatening—for disgise it ez we may, thousands uv em kin read, and they are akkumulatin property, and wearin good clothes to a extent truly alarmin to the Dimokratic mind. We hev alluz consoled ourselves with the soothin reflection that there was a race lower down in the scale of humanity than us ones. Shall we continue to enjoy that comfort? That's the question for every Dimocrat to consider when he votes this fall. Remove the weight uv legal disability, and ten to one ef they don't outstrip us even, and then where are we goin to look for a race to look down upon. Its a close thing atween us now, and ez we uv this generation can't elevate ourselves, why for our own peace uv mind we must I repeet it—must pull them down.

—Somebody has been making curious calculations about the wheat crop in Illinois, in 1865, and finds that if made into johnny cake it would feed the population of the world two days; and that to store the wheat would require a crib eight feet high by eight feet wide, allowing two and a half feet to a bushel, 3,276 miles in length, reaching from Passamaquoddy bay to San Francisco, and a good share of the distance back.

Teeth! Teeth! Teeth!
If there is one thing detracts more than any other from a lady's or gentleman's personal appearance, it is the absence of a good, perfect set of teeth. A leer in the eye like that of Captain Cutties, a nasal organ with an end like the dome of St. Peters, a pair of mammoth ears rising above a shaggy red head like two ragged ill-kept pines through a dense undergrowth, may all be overlooked, but an ugly set of decayed molars never. Those whom nature has robbed of their original ones, should therefore lose no time in procuring an artificial set at Dr. Spencer's, No. 254 Penn street. This gentleman has gained the reputation of being one of the very best Dentists in the United States by long years of patient toil and labored experience in this profession. He has fitted up his large and elegant establishment with all the appliances science has given to aid in the construction of artificial teeth, that in beauty and naturalness cannot be excelled. In addition to all this the Doctor administers that great and potent agent in doing away with all pain caused by the removal of teeth, laughing gas. Those who wish their teeth extracted without pain, should call on Dr. Spencer, and we can assure them of having it done to their entire satisfaction.

United States Attorney Appointed—The Shenandoah at Madagascar.

WASHINGTON, D. C., Oct. 6.—The President to-day appointed Philip H. H. Morgan United States Attorney for the district of Louisiana.

Secretary Seward continues to improve in health.

The Commissioner of the General Land Office has received returns from the land offices at Menosha, Wisconsin; Olympia, Washington Territory, and La Crosse, Wisconsin, showing that the public lands disposed of at those places during August, amounted to 20,808 acres.

Capt. J. R. Goldsborough, commanding the United States steamer Shenandoah, reports to the Navy Department his arrival at the Island of Muhi, one of the Le Chelle group, from Mauritius, which port he left on the 9th of August. The officers and crew of the Shenandoah are reported well. Official courtesies were exchanged at Tomatri, at which place the Shenandoah stopped on her passage from Mauritius to Muhi.

The Governor of the Provinces was visited by Captain Goldsborough, who received him in the Council Chamber with his Counsellors and himself in full uniform.

The Governor expressed his great pleasure at seeing an American vessel of war for the first time in the port of Madagascar. The Governor also, in the course of the friendly intercourse with Captain Goldsborough, proposed, after wine had been introduced, the health of the President of the United States, prefacing it with the remark that as the Shenandoah was the pioneer of American vessels to Madagascar, he hoped she might be followed by others, and that peace and friendship might ever continue between the two countries.

After drinking the health of the Queen of Madagascar, the Governor, in her name, presented Captain Goldsborough with a bullock, considered by them as a high mark of respect and friendship.

Second—Inasmuch as the State Courts are now open to all persons, with equal civil rights therein, without distinction of color, all cases, civil and criminal, in which the parties are civilians, must be turned over to the State tribunals, and all civilians now in military custody will be surrendered to the Sheriff of the district in which the alleged offence was committed.

Third—Military Provost Courts will be discontinued in the several districts as soon as District Courts are organized, excepting Hilton Head and the Sea Islands.

Fourth—Jails are to be restored to the Sheriffs.

Eleventh—Commends to the authorities and people of South Carolina, the patient, considerate and impartial execution of the laws, towards the class of persons recently clothed with civil rights, so that no occasion may hereafter arise for the exercise of military authority, in matters pertaining to the civil administration concerning the freed people.

The Famine in India—Horrible Facts.

NEW YORK, October 6.—The reports of the famine in India are confirmed, especially in the region around Calcutta. The correspondent of the London *Times*, writing from that city on the 11th of August, says the city was being so crowded with paupers, and a pestilence was so imminent that the municipal commission and one or two merchants organized a committee, and on Monday last a public meeting of all classes was held in the Town Hall to raise subscriptions. Official reports were read, giving statistics, which, completed to date, show that at twenty-two places 17,475 poor are daily fed, in addition to the sick in the hospitals, and as this number is increasing by about 250 a day, it may be said that 20,000 starvelings are now subsisting on charity daily in Calcutta.

Reports from Cuttack and Balazore are even more appalling, says the same authority. Think of nine hundred dead bodies being picked up in the streets of Balazore in one morning. Half the truth has not been told. The last return from Balazore shows seven hundred and three deaths in that one little station in the week ending July 21st, and if you treble that number for the many who become the food of the jackal and the vulture in the lonely juggle, or ditch, you will not go beyond the said truth. It is ominous that the Board of Revenue has ceased to report deaths.

Secretary Seward Improving—Commissioner of Indian Affairs—General Dix Formally Accepts—Secretary Harlan's Contract of No Force.

WASHINGTON, (D. C.,) October 5.—Much solicitude is expressed from abroad concerning the condition of Secretary Seward. It will be gratifying to his friends to learn that his health is improving.

Colonel Bogg, of St. Louis, is in Washington but will not enter his duties as Commissioner of Indian Affairs (to which he was yesterday appointed) until the first of November.

General Dix has formally accepted the French mission, and will leave this country for Paris towards the close of the present month.

Attorney General Stansberry yesterday gave an opinion that the contract entered into by by Harlan, late Secretary of the Interior, with the Connecticut Migration Company, disposing of 800,000 acres of the reserve lands of the Cherokee Indians at one dollar per acre, cannot be sustained and ought not be allowed.

The Southern Loyalists Mobbed at Cairo—The National Flag Torn Down.

CAIRO, October 6.—Col. Stencil, of Texas, and Col. Bingham, of Alabama, constituting a delegation of southern loyalists, arrived yesterday. They attempted to speak at the theatre in the evening, but the disturbing elements and tumult in the crowd were so great that the speakers could not proceed. Mayor Wilson went on the stand while Stencil was trying to speak, and urged the people to preserve order or leave the house, at the same time stating that he had no sympathy with the meeting; but his advice was disregarded, and the meeting was broken up. The crowd continued their noisy demonstration until after midnight, one of which was tearing down the national flag from the portico of the theatre. Messrs. Stencil and Bingham left for St. Louis this morning, and the city is now quiet.

The Fenians Getting Ready—John Mitchell Defines His Position.

NEW YORK, Oct. 6.—Increased activity is observed at the Fenian Headquarters in this city. Arms and ammunition are pouring in from various parts of the country. It is supposed that James Stephens is hard at work organizing an expedition for the invasion of Ireland. At the Roberts Headquarters it was reported that one of the prominent Fenian leaders received a letter from John Mitchell by the last steamer stating that in future he would not associate himself in any way with James Stephens, and that he would decline hereafter to receive any drafts from the C. O. I. R. to aid the cause in Ireland.

THE MOB SPIRIT OF THE OPPOSITION,

Immense Demonstrations in Philadelphia.

BRILLIANT PROSPECTS AHEAD.

Both Branches of the Legislature to be Republican.

EXIT COWAN.

Special Dispatch to the Pittsburgh Gazette.

PHILADELPHIA, Oct. 7th, 1866.

The city was in a blaze of political enthusiasm last night and in all quarters large and spirited public meetings were held under the auspices of the Union Republican party. An immense assemblage gathered at the Academy of Music, while equally large and important meetings assembled in many of the wards. Since the disturbance of Friday night the democratic element has been uneasy, restless and turbulent. It was with great difficulty that they were restrained from committing acts of violence last night. Owing to the excellent police arrangements and the precaution used by Mayor McMichael to prevent a riot, nothing very serious happened. The ill humor of the opposition which is now cropping out in various parts of the state, is attributed to the desperation of the bad men who have done much to prevent the glorious victory General Geary will achieve on Tuesday next. Their hope has fled and their case is critical. Philadelphia county is all right. It will send such cheering tidings to Allegheny on Tuesday night as will cause every loyal heart to throb with joy. Much betting here upon the result of the election, three to one being offered on Geary, with no takers. All look to Allegheny county to roll up an overwhelming Union majority, such as will swallow the majority promised Clymer in Berks county. There can be no doubt but as many Radical Republican members of Congress as were elected two years ago will be chosen out of Pennsylvania, and perhaps more. Both branches of the State Legislature will be Republican, and then the people of the Commonwealth can safely dismiss from their service the man who has deceived them so basely, and betrayed the party which elevated him into power—Edgar A. Cowan. These statements are based upon accurate and close calculations made by the State Central Committee. The Union Republican party was never better organized in the state, and Geary's election by an immense majority is a foregone conclusion.

WASHINGTON, Oct. 7.—A telegram has been received dated Salem, Oregon, October 6th, saying: "To day the Oregon Legislature mutually expunged the former ratification of the Constitutional amendment by a vote of 24 ayes against 23 nays."

The health of Secretary Seward is to-day much improved. He has been able to leave his room and the present prospect is that he will soon resume his official duties.

Colonel Thomas D. Kelly and Captain John Cafferty waited on the President yesterday, and laid before him the case of certain naturalized citizens still held as prisoners in Ireland by the Government of Great Britain, on suspicion of complicity in the Fenian revolutionary measures, together with the resolutions recently adopted at a meeting held in New York, making an appeal in their behalf, and asserting that the honor and dignity of the United States have been seriously compromised in our foreign relations by those having charge of them, both at home and abroad, and asking that Minister Adams and Consul West, at Dublin, and Eastman, at Cork, be immediately recalled for having, as the resolution asserts, acquiesced in the declared doctrine of England, that subjects of that country could not throw off their allegiance to that despotic power by assuming the duties and status a United States citizen.

The President received the delegation with courtesy, but it seems that the interview was not satisfactory to the delegation.

By direction of the President Lieutenant P. Cramer, of the 21st New York Cavalry, has been reinstated with the removal of the stoppage of pay and allowances. It will be recollected he was dismissed in July, 1865, for allowing the enlisted men in his command to violate orders. He has satisfied the President of the injustice of his dismissal.

All the members of the Council were present. Seven archbishops, thirty-eight bishops, one hundred and twenty-two priests, heads of orders, and doctors of divinity, seventy-four ecclesiastics, four monks and three mitred abbots were present. The procession was formed at the Archbishop's residence, and moved round the square to the Cathedral. There was an immense gathering in the streets. Many of the paintings and other valuables were saved. The loss is estimated at one hundred and fifty thousand dollars, insured. Many valuable frescoes and the large organ were destroyed. Accident on the Pennsylvania Railroad.—At an early hour yesterday morning the freight train bound west on the Pennsylvania Railroad, ran over a cow the other side of Altoona, and the engine and several of the forward cars were thrown from the track and smashed up pretty badly. We did not learn that any person was hurt. Cure for Smoky Chimneys.—In building a chimney put a quantity of salt into the mortar with which the intercourses of brick are to be laid. The effect will be that there will never be any soot in the chimney. The philosophy is thus stated. The salt in the portion of mortar which is exposed absorbs moisture every damp day. The soot thus becoming damp, falls down the fireplace. Our readers should remember to preserve this little piece of valuable information.

Large Meeting.—A very large and enthusiastic meeting of Union Republicans, was held on Saturday night, at Brownsville, Covode's District. Able, patriotic and spirited addresses were delivered by General Lee, of Connecticut, and Senator Bigham, of Pennsylvania. Much enthusiasm prevailed.

The "Blue Boys in White" Attack the Loyal Boys in Blue—They are Routed—Disgraceful Proceedings at East Liberty.

On Saturday night there were announced to be held two political mass meetings at East Liberty, one to be addressed by Judge Shannon, Tom Marshall and W. C. Moreland; the other by Cowan and ex-preacher Moore of Greensburg. The former was Union, the latter not. Both parties had provided special excursion trains to bear visitors and delegations from the city who might attend either meeting. Both trains were to leave the depot at the same hour, and both meetings were to have been held in close proximity to each other. The Mongrelites spent all Saturday in mustering a crowd to attend their meeting, while an advertisement in the Union papers sufficed to crowd the train which bore the Union delegations. Previous to leaving, both parties paraded the streets headed by brass bands.

At the depot the two delegations met. A train was in waiting upon the right track for the Fusionists while on the left was the train for the Union Republicans. The two great crowds of excited citizens rolled up cheer upon cheer for their respective candidates and occasionally insulting and blasphemous words were called out by the more rash or excited members of either delegation. The Clymerites picked up one of the Boys in Blue who had wandered from his crowd and proceeded to pummel him in a manner by no means good for the unlucky wight's health or constitution. The Radicals soon discovered what was being enacted on the other side of the platform and made a solid charge upon the enemy amidst the wildest of cheering and most terrific of yelling. The "blue boys in white" immediately broke and fled in confusion to their train. Their stragglers fell like snow-flakes in a storm as the noble [illegible] of the Fifth ward went into them for the cause of Geary. The rittous elements was soon calmed down and the Clymerites kept close to their cars till the iron horse whistled up brakes and the thrugmullians were on their way to East Liberty. Within a few minutes after, the immense train bearing the Union delegations followed. The latter stopped at Lawrenceville station, and took on board large delegations from that borough and the Ninth ward. About eight o'clock the delegations reached East Liberty and were received in an enthusiastic manner by the Boys in Blue of that village, who were waiting at the Depot. An imposing procession was at once formed, and marched down through the village to the place of holding the meeting. Nothing unusual happened during the procession as the Fusionists were parading in another section. Arriving at the place of meeting, which had already been organized and was being addressed by Hon. P. C. Shannon, the procession halted and joined in the immense throng of loyal citizens assembled. Judge Shannon warmly welcomed the brave boys in blue and proceeded with a truly eloquent and effective address. He was interrupted by the unterrified coming up towards the meeting, preceded by martial bands that beat as though their lives depended on the noise they made. The Boys were warned and advised by Mr. Joseph Dilworth, the chairman of the meeting, to offer no incivility to the passing procession. The warning was well heeded and the opposition passed through the ranks of the Republicans, and suffered no more molestation than that of having a few of their tiny chinese lanterns fired by the torches of the Boys in Blue, against which they ran. After the procession had passed on, the Union meeting again reorganized, and J. W. Pope, Esq., being loudly called for made his appearance, and in fine style discoursed a few of his melodies. Thomas M. Marshall, Esq., was the next speaker introduced. He made one of his strongest appeals, and we have seldom heard him speak better. He carried the audience with him, and for over one hour held them together by a clear, eloquent, logical and sarcastic review of the popular issues of the day. He was followed by W. C. Moreland, Esq., who delivered a very able, patriotic and argumentative address.

A SCENE OF CONFUSION.

During the delivery of Mr. Moreland's speech the Clymerites threw out pickets from their meeting ground, which advanced to a point on the turnpike road within hailing distance of the Union meeting. These fellows called derisive names to the Radicals and bantered them out to fight it out upon their line. The taunting spirit of the thrugmullians soon succeeded in rousing the ire of the pugnacious element in the Union ranks, and a squad of fighting material was formed by the Boys in Blue, and with wild cheers a charge was made upon the advancing enemy. The opposition held their ground for several minutes, playing infant Davids, by hurling stones, but seeing that the Boys in Blue did not mean to be routed, they made a masterly retreat within the lines of the Fusion meeting. These skirmishes occurred several times during the evening, always resulting in an easy victory to the Boys in Blue. Now these were good humored affairs, and aside from throwing stones there were no other efforts made to destroy human life by either side. But the enemy had planned a more important movement. They conceived the idea of breaking up the Union meeting by again marching through its solid ranks. With this intent they marshaled their forces and preceded by a deafening band of fifes and drums took up the march along the road leading to the Republican camp. Mr. Pope was singing as they reached the Union meeting and his voice was drowned by the cheers for Sweitzer, which rolled up from the throats of the unwashed. Then as the snake like column had drawn itself up to the Union stand, stone throwing commenced in right good earnest. The banners of the opposition were soon riddled by boulders, which sought gravity at the other side, while our own transparencies shared a no better fate. The scene of disorder and confusion which ensued beggars description. Cheers, yells and curses broke upon the still night air and stones fell as though a meteor had bursted in heaven and rained its angry fragments upon the earth. Then all along the Clymer line pistols were fired and the whizzing bullets flew in all directions, in most cases burying themselves in harmless trees and unprotected doors and shutters. The Clymerites were outgeneraled by the Boys in Blue, who flanked them, and in divers ways paid the respects of war, due their belligerent natures. The fight raged fully ten minutes, and the greatest excitement imaginable prevailed. Finally the vanquished White Boys in Blue withdrew their forces, and left the field clear to the Republicans. A summary of the wounded was taken, and aside from a few cut heads, bruised limbs and bodies, we could hear of no serious consequences on the Union side. We did not venture among the opposition to learn casualties, as we regard our knowledge box too precious to use in stopping flying brickbats or pistol bullets. The Clymerites succeeded in breaking up the Union meeting; but the hour of adjournment had already arrived before the engagement. Both parties had slight skirmishing at the depot, but it did not amount to much. It was feared that the scene enacted in the village would be repeated, but owing to the leaders of the Boys in Blue acting calmly and dispassionately, the bitter fighting feeling was allayed, and judgment got the better of rash courage. Fearing, however, that the train bearing the opposition would be mobbed in passing the station house, the Union men were filed away from the depot and rested out of stone's throw from the railroad track. A few boys, however, did throw at the train as it passed, and broke many of the windows. The Clymerites responded by firing indiscriminately, and without effect, upon the persons about the Station. We can account in no manner for the wonderful escape of persons engaged in the riot—for such it was—from the pistol bullets, but presume the blue boys in white, *never having been accustomed to use firearms*, are very poor marksman, else some of their numerous shots would have taken effect. We can safely say that not a shot was fired by the Union Republicans, the use of deadly weapons being confined entirely to the other crowd. Both delegations arrived safely in the city, and nothing further of importance transpired.

We have given a fair impartial account of the disgraceful proceedings at East Liberty, and while we do not wish to appear as apologists for any set of men who will indulge in riotous conduct, still we do think that the opposition provoked the attack and are solely responsible for the disgraceful scenes enacted. They left the city prepared for a fight, all being armed to the teeth, and they worked zealously to accomplish their malicious design. They got a fight and got more—a sound drubbing. We trust no other disturbance of like character will hereafter disgrace either party.

Outrages at McKeesport.

The Democracy of McKeesport had a meeting on Friday evening; and in order to offset, as far as possible, the fine demonstration of the Republicans on the previous day, they invited delegations of their partisans from this city, and they got them. A strong force of roughs came up by special train about eight o'clock, all of the Democratic persuasion, and commenced a series of outrages. They did not disturb the meeting, but contented themselves with perambulating the streets and committing outrages upon the citizens, regardless of party. They cleaned out the hotel of John Wittenbaugh, a Democrat, doing considerable damage. They robbed Mr. Mitchell's candy store; stole a one-legged soldier's wine; cleaned out Ressing's confectionary store, and robbed his drawer of fifteen dollars in money, and committed many other acts of violence, winding up with a fight among themselves.

The effect of this rowdyism has been to cause a considerable number of the citizens of that place to declare themselves in favor of the Republican cause, who, but for the outrageous conduct of these ruffians, would have voted the other way.

Our friends of McKeesport are confident of being able to increase their majority.

Grand and Final Rally, This (Monday) Evening, in the Diamond, in Allegheny.

Republicans, one and all, "Fence men," one and all, come to this last rally, the precursor of the day of exultation and triumph, with an intermediate day of energetic labor, vigilance and balloting. Hon. Thomas Williams, Thos. Marshall, and other "big guns" will be brought to bear on the enemy on this occasion. Let this meeting, like the others held at the same place, be measured by the acre—say five or ten.

Conductor Run Over.—Yesterday afternoon, at about five o'clock, as car No. 6, of the Birmingham Passenger Railway had reached the corner of First and Smithfield streets, the conductor, John Johns, stepped off the car, when he was struck and knocked down by a horse and spring wagon driven by a German. Before the horse could be checked both wheels of the wagon passed over Johns' right leg, tearing his clothing and bruising him quite severely. The injured man was removed to his home in Birmingham, and was doing well when last heard from. The German driver was arrested and taken to the Mayor's office, accompanied by a crowd. He had a careful hearing and was discharged, the facts elicited proving that the occurrence was all an accident.

Are They Genuine?—Look to the Assessments!

It will be seen by the following list of assessments for 1866 in the various districts of Allegheny county, compiled from the County Commissioner's Office, that the very large number of 7,254 names have been added to the list, and while it is possible that they may all be genuine residents, the attention of the friends of loyalty is earnestly invoked to sift the genuineness on Tuesday next:

Mass Meeting at the Soda Works, Harrison Township—Immense Enthusiasm of the People.

The citizens of Harrison township held a large and enthusiastic meeting at the Soda Works on Saturday evening. The meeting was addressed by Colonel Tourgee, of North Carolina, Prof. J. Cohen, of Pittsburgh, and Captain A. J. Hamilton, of Allegheny City. A grand torch-light procession paraded the streets. It consisted of the delegation from Natrona, on foot and horseback, delegation from Harrison, Fawn and East Deer townships. The Niagara fire engine and hose carriage of the Soda Works were in the procession and were beautifully decorated with the emblems of our nationality. At the meeting there were about two thousand persons present, who were presided over by the following officers:

President—T. H. Bracken, Esq.

Vice Presidents—John Karnes, W. B. Evans, S. Drury, John West, Thos. Harrison, and J. J. Miller, Esq.

Secretaries—Capt. E. J. Taggert, D. B. Singer and James M. Bracken.

The town was beautifully illuminated and decorated. Several transparencies were carried, among which one bore the following mottoes: "The *Devil* is dead, and so is *Clymer*," "The things of the past we leave behind, *namely*, Johnson and Clymer," "Harrison Township Geary Club," "Geary's Head is Right."

The meeting adjourned with three cheers for Geary, the ladies of Natrona, Congress and the speakers.

A Clergyman Acquitted.

Our readers will remember that during the session of the United Presbyterian General Assembly that met in Col. Clark's church, Allegheny City, last May, Rev. W. C. McCune, of Cincinnati, was charged by seven different Presbyteries with "holding and defending a fundamental and serious error on the subject of Church fellowship." The Assembly referred the whole matter to the First Presbytery of Ohio, of which Mr. McCune is a member. At the late United Presbyterian Synod held at Shiloh, Indiana, the case came up for trial. The history of the affair is substantially as follows: Some time during last winter Mr. McCune published a book, in which he maintained the position that all who gave credible evidence of faith in Christ, ought to be received into the Christian Church, without reference to their ability to subscribe to this or that denominational peculiarity. The book, it appears, gave great offense to some of his brethren outside of his own Synod. After a careful investigation of all charges specified, the reverend gentleman was acquitted by a vote of forty-three to fifteen.

The result was received with general joy, as Mr. McCune is held in high esteem, not only by the members of his own Church, but by the entire sect of which he is the shining light.

Aggravated Assault and Battery.

Michael Teirman resides in Temperanceville, in a house adjoining that of James Carroll. On Friday night Michael returned from a visit to this city slightly under the influence of certain beverages several degrees stronger than nature's liquid. Feeling himself aggrieved by some remark made by Carroll relative to his condition, he threatened to visit summary vengeance on the head of the offender if he did not immediately retract his words. This Carroll refused to do, and Teirman, therefore, struck him in the temple, knocking him over a precipitous embankment some ten feet in height. The fall injured Carroll very severely, and he had to be removed to his home, where medical aid was summoned. An examination showed that two of his ribs were broken and a gash, several inches in extent, cut in the back of his head. On Saturday morning Carroll's wife appeared before Justice Barker, and made oath against Teirman for aggravated assault and battery. The defendant has not yet been arrested.

Meeting at Girty's Run.

The Republicans of Northern Duquesne assembled *en masse* on Friday evening, the 5th inst., at the Girty's Run school-house. On motion, John L. Williams, Esq., took the chair, and Messrs. Isaac Riley, William R. Williams, F. G. Seabrouck and John Briner, were appointed Vice Presidents, and H. B. Lyod, Esq., Secretary. Rev. John E. McGaw, D. D., opened the meeting with an impressive prayer. William M. Moffett, Esq., of Pittsburgh, Colonel John Danks, and Rev. John E. McGaw, D. D., of Temperanceville, addressed the meeting. The meeting was enlivened by song singing.

Ed. A. Reed was called out and spoke for a short time in German, after which the meeting adjourned to meet at the polls, on next Tuesday, and prove Duquesne good for 115 majority for Geary and Williams.

Eighth Ward.

The Boys in Blue of the Eighth ward will hold a meeting this evening at the Eighth ward School House. General Collier and other distinguished speakers will be present and address the meeting. This Ward had a glorious record during the war. The foot-prints of her soldiers, and the mounds which were raised over her dead, marked many of the principal battle-fields of the rebellion. Those of her "Boys in Blue" who have returned, some with scars, some with "empty sleeves," and all with honor, are determined that the man who never voted a dollar to pay, or a man to reinforce them in the field, shall never disgrace the great state of Pennsylvania by being her Governor, if their votes and influence will prevent it. We hope there will be a large turnout of citizens.

Betrayed His Trust.—On Saturday morning an information was made before Alderman Strain against a man named George Wells for larceny as bailee. The prosecutor gave into possession of Wells, at Oil City, for safe keeping, a lot of household utensils, valued at about three hundred dollars. Wells subsequently moved to Shousetown, on the Ohio river. The prosecutor upon requesting his goods was refused, and the information was made as stated above. The accused was arrested and held in the sum of five hundred dollars for a hearing next Saturday.

Sharpsburg — Large and Enthusiastic Meeting.—From the number at the grand rally in this town on Saturday evening, we should judge that there can scarcely be any Copper Johnsonians thereabouts. There were no delegations from either Pittsburgh or Allegheny city, and yet the mass of attentive, enthusiastic auditors would have been creditable at a city meeting. The speeches of A. M. Watson, Esq., and Mr. J. H. Morris were received with shouts of applause. The welkin rang with tremendous cheers for Gen. Geary, Williams, and the whole ticket.

Democrats after a Constituent.—A Democrat from Reading was in Harrisburg a day or two ago endeavoring to hire a colored man to ride on a bureau in a Democratic procession in that place. He offered fifteen dollars and all expenses for a black man, but was unable to find one mean enough to become a Democratic "voter." The colored men spurned the offer of the Copperhead, and he left town with a flea in his ear. Neither could a bureau negro be hired in Reading. How are you Democratic colored voters!

A Wife Charges Her Husband with Adultery.

A woman named Jane Monton—a French Canadian—came to the office of Alderman Taylor on Saturday and made oath against her husband, Eugene Monton, for adultery. The prosecutrix states that on the 23d of last December the accused left their home, near St. Croix for the ostensible purpose of going to Buffalo to collect money which some parties there owed him, promising to return in three days. The time designated for his return came and went, and weeks and months followed, and yet she could learn nothing of the whereabouts of the absentee. Her circumstances forced her to dispose of some of her household effects, and with the money thus obtained she started with a child four years old for Buffalo where she instituted inquiry for her husband.

After a week spent in a vain search she ascertained from an authentic source that he whom she was in quest of had come to Pittsburgh with a lady, who, at the hotel where he put up previous to his departure, had been registered as his wife.

Determining to learn the worst, she came to this city, where she arrived on Thursday morning. Acting on information previously received she started for Duquesne borough, where she found her husband occupying a dwelling near the river side with a strange woman, who, in the neighborhood, had the reputation of being his wife. Without questioning or upbraiding him for his dastardly conduct, the outraged wife proceeded immediately to the office of the Alderman and made the information stated.

A warrant was issued for the arrest of the accused, but when the officer went to the house where the guilty pair were said to live, he found the door locked, and to all appearance the house deserted.

A Valuable Article.

Every lady will concur with us when we say that no article in the wardrobe of a modern *belle* is so essentially necessary as a neat set of crinoline. Even the old style cane hoops were far preferable to the straight laced appearance of the ladies prior to their advent. If there is anything particularly obnoxious to a masculine it is to see one of the opposite sex with her clothing clinging, as if in fondness, to her limbs, or worse still, to behold her surrounded by crinoline devoid of symmetry and bowed out in angler shapes. This should cause the women to purchase the only first class hoops in the market. That is Bradley's Duplex Elliptic or double spring skirts, which, for comfort, durability and beauty cannot be equalled, much less excelled in this country. They will last longer in constant use than four sets of any pattern—will neither bend or break, and a lady can enter a pew or other small aperture without inconvenience or disarrangement of her toilet. These valuable articles can be had in any trimming store. Remember and ask for Bradley's Duplex Elliptic Skirt.

A New "Sharp."

The Harrisburg *Telegraph* has the following: "An attempt was made an evening or two ago, in this city, to fleece a countryman, by a new process. He was asked by a stranger if he could give two five dollar notes for a ten. The countrymen said he could, and taking a roll of bills from his pocket, passed over the two fives to the person, receiving in exchange the ten, which he rolled up with the rest of his bills, and placed them in the side pocket of his coat. On searching his coat in the morning he found that a piece of black silk thread had been run through the bill he received from the stranger, and that a piece of the same about three feet long still remained attached. The intention of the party for whom he changed the bill was, doubtless, at a favorable opportunity, to take hold of the thread and drag the whole roll of bills from his pocket, which could easily have been accomplished, had not the thread by some means been broken."

Allegheny Brewery.

The old Allegheny Brewery has been long and favorably known to the community. It has for years back sustained a high reputation for the fine quality of the malt liquor brewed, and our readers will be pleased to learn that the justly earned reputation will be fully sustained in the future. The old brewery has passed into the hands of active, enterprising and judicious business men, Messrs. Smith & Co., who are determined to add to the already great popularity of their famous spring water ales. They each have had liberal and extended experience in the business, and we bespeak for them a liberal share of the public patronage. They are the sole proprietors of this brewery and are not connected with any other. The Allegheny Brewery is located at 465 Rebecca street, but all orders left at Brown & Graham's, 203 Liberty street, will be promptly and properly attended to. See advertisement elsewhere.

An Injured Female Seeks Redress.

Marie Call came to the office of Alderman Lynch, on Saturday, and made oath against Peter Raleigh, for assault and battery. The prosecutrix states that the accused met her on the public highway a few days since, and wished to borrow seventy-five cents of her. She declined loaning her funds, when Raleigh shoved her violently off the pavement into the gutter. Marie called on the defendant a few days after, and demanded that he should apologize to her for his rudeness. This he declined doing, adding that if she did not quit troubling him he would be forced to repeat his former offence with several additions of muscular force. Seeing all her efforts at conciliation were futile, Marie repaired to the magistrate and proceeded to seek revenge for her great wrongs, through the mighty channel of the law. A warrant was issued.

Another Well Known Citizen Gone.

It is with deep regret that we announce the demise of Judah Case, Esq., a well known citizen of this town. He expired at his residence, No. 81 Diamond street, at half-past one o'clock, Saturday morning, in the seventy-eighth year of his age. The deceased was born at Simsbury, Hartford county, Connecticut, September 14th, 1789. When fourteen years of age he came to Western Pennsylvania. He was actively engaged in business for a number of years in Somerset and Westmoreland counties, and was widely known throughout these and adjoining counties. In 1851 he removed from Westmoreland county to this city, where he has resided up to the time of his decease. His remains were taken to Unity burying ground, Westmoreland county, for interment.

Wounded.

Yesterday afternoon two boys, named Richard Clark and Elias Dillingham, were engaged in throwing stones at one another, or in other words, were having a mimic battle, and while young Dillingham was in the act of stooping for a stone, a piece of slate thrown by Clark struck him in the face a little below the left eye, inflicting an ugly wound, and knocking the boy senseless to the ground, from which he was taken by his mother, who saw the occurrence, and borne to his home. Dr. Herron was summoned, and dressed the little fellow's wound, which, although not dangerous, is exceedingly painful. Both parties reside on Ohio street, Allegheny, where the affair took place.

Lucky Termination of a Fall.

A few days since, two men named William Beedle and Ralph Turnbull, while preparing to descend into a coal shaft, at Long's Works, up Saw Mill Run, had just entered the car and were about being lowered, when the rope upon which the car was suspended, snapped in twain, and precipitated both of the men with fearful rapidity down the shaft, a distance of eighty-six feet. Strange to relate, Mr. Beedle escaped without a scratch, while Turnbull experienced only some slight abrasures of the flesh. We believe the fall of the car was measurably broken by a protecting platform of some kind, which was used for fixing pipes in the shaft.

More of the Riot.—We learn, since writing our report of the recent disgraceful riot at East Liberty, that the Second Ward Boys in Blue were stoned on Grant street, near Webster, on their way to the Union Depot on Saturday night. Several of the members were seriously injured. We are also informed that the Clymerites in the train coming home from East Liberty, threw the first stone out of the car windows so that they invited the attack on the train. The road authorities of that borough blame the Fusionists with stealing the best part of the pike and carrying it home with them—*in their pockets*.

Meeting in Ross Township.—The last grand rally of the campaign in Ross township will take place at Bakerstown, this evening, at half past seven o'clock.

Eminent orators will be present, and deliver addresses in English and German.

Let there be a general turnout, so that the great political contest of '66 shall be closed in old Ross with such *eclat* as will strike terror to the hearts and bring dismay to the camps of the Fusionists.

New Reading Matter.—We have received from the news room of J. W. Pittock, opposite the Postoffice, the last numbers of *Harper's Weekly*, *Frank Leslie's*, the *Nation*, the *Round Table*, and *Every Saturday*. It is a rich budget of entertaining reading matter. *Harper's Weekly* contains a very correct representation of City Hall during the great Soldiers' Convention here, and also a very excellent likeness of General Cox, the presiding officer of that body.

Getting Naturalized.—On Saturday morning Judge Stowe had his hands full in the Supreme Court-room, making American citizens. The rush is very large, the Clerk's office, Prothonotary and Supreme Court-room being literally besieged, by men wishing to become citizens and thus secure a vote in the coming election. The crowd was so large that it was impossible to get through. The Judges agreed to set all day to-day and continue to naturalize.

Painful Accident.—Robert Johnson, an employee of Hussey & Wells' steel works met with a painful accident on Saturday afternoon. He was removing a heavy mass of hot metal when it fell against him, burning his face and eyes very badly, though it is considered that his sight will not be ruined. He was removed to his home on Pike street where he received proper attention.

Seriously Hurt.—On Saturday afternoon a German, whose name we did not ascertain, was severely hurt at Zuggs mill. He was at work lifting a heavy casting, when it broke loose and fell upon him, crushing him quite severely, inflicting painful but not fatal injuries.

WE invite attention to the numerical statements embodied in a letter which we publish from a North Carolina correspondent, touching the manner in which the third section of the Constitutional Amendment will affect the Congressional apportionment in the rebel States. It will be seen that the Amendment tends to do simple and exact justice between the white inhabitants of different districts in those States, as well as between those States and the loyal ones. Under every aspect in which the Amendment is considered it commends itself to approval.

THE CASE PLAINLY STATED.

The Constitutional Amendment now before the States for ratification very properly leaves the question, as to who shall vote and who shall not vote, with the States. This is in accordance with the working of our political system during all our past history. What it does propose to change is the basis of representation in the popular branch of the National Legislature. At present this is based upon population, irrespective of color, age, sex or condition. The peculiar provision contained in the Constitution as it now is, giving to the States a three-fifths representation upon their slave population, was virtually abrogated by the abolition of slavery, and now all—white people, black people, freemen and freedmen—count alike.

It is proposed to change this, and make the voting population only the basis of representation, leaving it optional with the States to make that voting population large or small as they please. Should South Carolina, for example, see proper, after having ratified the amendment, to adhere to her oligarchical forms, and debar all colored men, and all poor white men, from the privilege of the franchise, she is free to do so; but, if she does, she must be content to part with a proportional amount of her weight in the popular branch of the National Legislature. But if, on the other hand, she should elect to enfranchise all classes of her people, rich and poor, white and black, her representation will be proportionately increased. This is eminently just, equitable and democratic.

In order to see the effect of enfranchising or not enfranchising the colored population of the slave States, we have prepared the following table, showing their representation in Congress under the two systems—white suffrage and universal suffrage:

	White Suffrage.	*Universal Suffrage.*
Alabama	4	6
Arkansas	3	3
Delaware	1	1
Florida	1	1
Georgia	5	8
Kentucky	8	9
Louisiana	4	6
Maryland	5	5
Mississippi	2	6
Missouri	9	9
North Carolina	6	8
South Carolina	2	5
Tennessee	7	9
Texas	4	5
The Virginias	9	12
	70	95

The representation of the Northern States, especially of those in which colored men vote, is increased to the same amount that that of the Southern States is diminished.

Of course it will be the interest of those negro States to extend the suffrage to the colored portion of their population, and they will probably do it. It will, however, be more to the interest of the great manufacturing States of the North, and also of the republican party, if they shall stick to their old forms and prejudices. But we give them their choice, and shall be content with their decision, be it what it may. *But they shall not have a full representation upon a restricted suffrage.*

THE RIGHT OF DISCUSSION.

The Richmond (Va.) *Whig* of Saturday, 29th ult., after quoting an extract from the speech of J. W. HUNNICUTT, the Southern delegate, at Indianapolis, speaks as follows:

> "If this man return to Richmond, ought he not to be arrested, not for his political opinions, but as an incendiary and disturber of the public peace?"

It is full time the Southern people were cured of this distemper. For thirty years they crushed out Freedom of Speech and of the Press. In time of profound peace, and on topics of general concernment, no man was allowed to speak or print otherwise than as the slaveholding aristocracy, and the political leaders assimulating therewith, consented and decreed. Northern men, going South, and only suspected of holding opinions obnoxious to that aristocracy, were commonly subjected to mob violence, and found themselves without means of redress. The rights guaranteed to them by the Constitution were defiantly trampled upon. Now, the loyal men of the nation mean that this condition of affairs shall not be renewed; that all Southern men, subject only to proper amenability to the Constitution and Laws, shall enjoy the right freely to discuss, in their places of abode, or elsewhere, all public questions; and that Northern men going South, shall be just as secure from violence, or insult, in consequence of giving expression to their feelings and ideas, as Southern men are when they come North, and exercise the same right. This is one of the meanings of the first section of the Constitutional Amendment, and of the fifth section.

The sooner the leaders of Southern opinion understand the unalterable purpose of the North on this subject, the better it will be for them and for all. When they consent, not simply in form, but in substance, to these conditions, the day of the complete restoration of the Union will dawn, and no sooner.

INDISTINCT visions of impeachment flit before the eyes of the President. It is always thus that wrongs committed disturb the imagination of transgressors.

STATE OF THINGS IN TEXAS.

The dispatch of General SHERIDAN to Gov. THROCKMORTON, of Texas, which we published on Saturday morning, reveals an alarming state of things in that State—one of utter lawlessness and anarchy, and, in fact, a renewal of the rebellion and the war. The General, after begging him to do all in his power to keep order, says to the Governor: "I will do all in my power to satisfy the ends of justice in every case; *but I doubt if much justice can be done in a community which compels our officers and soldiers to remain inside of the defenses thrown around their camp.*"

This looks very much like a renewal of the scenes of the early part of 1861, when Major ANDERSON was shut up by surrounding traitors in the national defenses of Charleston harbor. We had a President then who, although perversely wrong, was too imbecile and cowardly to do much, either right or wrong; but the man we have now is much more dangerous; for he has shown himself to be wicked enough to ruin if he cannot rule. Our hope, so far as we may place it upon human agency at all, concentrates upon Congress. Let us strengthen Congress by our votes. That is our great duty now, whatever we may be called upon to do hereafter.

WHITES AND BLACKS.

In his St. Louis speech the President said:

> "Now, mark you, the colored man that served two years can get his $100 bounty, but the white man must serve three years before he can get his."

The bill passed by Congress, and to which dishonest reference is here made, was approved by the President, and has the force of law only in consequence of his signature. If he signed a bill knowing it to contain so unjust a provision as the one he declares to be contained in this bill, he committed a great wrong which, in common decency ought to close his mouth from criminations against Congress for sharing in his wrong. But the fact is, no such law was passed by Congress or approved by the President. When Mr. JOHNSON made that assertion at St. Louis he was deliberately lying. This is a hard saying, but it is a true one. The man who garbled Gen. SHERIDAN's dispatches, so as to make that officer appear to say what he did not say, and had no intention of saying, is capable of committidg any other outrage upon veracity.

THE GAZETTE puts it as a feather in its cap that the 63d *annual subscription* in unbroken series was renewed to day by REUBEN MILLER, Jr., Esq., who, in continuing the subscription not only consults his own choice, but honors that of his father, REUBEN MILLER, Sen., who began the series in 1803. Mr. MILLER, the elder, well remembered by all the old business men of the city, was gathered to his fathers some ten years ago. We trust Mr. MILLER, Jr., and the GAZETTE may long live to enjoy each other's confidence and company.

LETTER FROM NORTH CAROLINA.

[Correspondence of the Pittsburgh Gazette.]

NEWBERN, N. C., Oct. 1st, 1866.

There will be one result of the adoption of the Howard Amendment, which has not been noticed, and which ought not to be overlooked. It has been shown how it will equalize representation by giving the vote of the Southern man just the same power as the Northern man. If it did more, it would be unjust; but it does not. It's purpose is absolute equality.

But the inequality and injustice sought to be corrected by this Amendment operates not only against the Northern States, but in almost the same degree against certain sections of the late slaveholding States. A few figures show this. The Seventh Congressional District of North Carolina, comprising twenty counties in the extreme western part of the State has by the census of 1860, a population composed as follows:

Whites	114,701
Free Blacks	1,935
Slaves	19,035
In all	135,671

The Second District, comprising twelve counties, in the eastern part of the State, has, by the same census, a population as follows:

Whites	76,928
Free Blacks	4,639
Slaves	62,912
In all	145,479

It is seen that a voting population of 76,000 on the Eastern part have as much power as a voting population of 114,000 in the Western part, an inequality almost as great as between any district South and any district North.

Now see how this inequality is affected by the adoption or rejection of the amendment. If it is rejected, a new appointment must be made of Congressmen, to determine whether the colored population must be counted, and under which (the basis of representation being 129,245) the State would gain one member. This gain it is seen benefits only the Eastern counties, when the slave population predominates, and reduces the power of the Western district in the Congressional delegation from *one-seventh* to *one-eighth* of the whole. On the contrary, if the amendment is rejected, the basis of representation becomes 111,685, the State loses two of her delegation. No fraction of the loss falls heavier on the Western district, which has a white population of 114,701. The boundary of the Western district would probably suffer change in no case. It is a question simply whether the twenty counties that compose it, shall control *one-fifth* of the power of the State in Congress, or only *one-eighth*.

This inequality is equally marked in Tennessee. This State under the present apportionment has eight districts, in which the population is as follows:

	Whites.	Blacks.	Total.
Three districts comprising 42 counties of East Tennessee	355,509	45,643	401,152
Five districts comprising the rest of the State	471,273	237,376	708,649
Total	826,782	283,019	1,109,801

The three district of East Tennessee by the present apportionment have three-eighths of the delegation in Congress. By the rejection of the amendment the State will gain one seat, which will be so much added to the strength of the western section, as is seen by the preponderance of the colored population. On the contrary, by its adoption, she will lose one seat, a loss which falls entirely on the western caunties. The question is whether East Tennessee shall control *three-sevenths* or barely *three-ninths* of the power of the State in Congress.

No one needs to be reminded of the tried fidelity to the Union of the people of East Tennessee and western North Carolina. A State carved out of that vast mountain region would have been, during the war, as true as Vermont. Free labor is loyal wherever you find it, and throughout the slave States the attachment of the white people of any section to the Union has been found to be in an inverse ratio to the proportion of slaves in the section. And yet these people have been trammelled, kept from their just rights by the operation of this very unequal clause in the Constitution, which it is now right to abrogate. Where is the friend of the Union who will say that for their very loyalty they shall now be subjected to a greater degree of injustice and more galling? Where is the friend of the Union who will not rather demand that radical change in the Constitution which will give them their just rights and equal representation on the floor of Congress?

As regards the Northern States, the safety of the Union depends on the adoption of this Amendment. As regards the loyal sections of Southern States, it is a matter of simple justice to those who deserve our warmest sympathy, and on whom in the hour of national peril we can always rely.

The strongest inducements continue to be held out to immigration from the North. We hear almost every day accounts of hospitalities tendered to Northern men settled in various parts of the State, which smack of the real old North Carolina spirit. The last was the visit of a dozen armed men to the plantation of Mr. Wallace Ames, of Massachusetts, who is raising cotton in the upper part of Lenoir county. They generously refrained on last Saturday night from driving off more than eleven of his mules and one horse. It is said that Captain Wheeler, formerly of the army, planting in the northwestern part of Craven county, has had a similar visitation; particulars not stated.

At an election of Militia officers the other day, I noticed one John O'Conner was chosen Lieutenant Colonel. This hero of the war figured at the hanging of Union soldiers in Kingston in 1864. This last exploit was an assault and battery committed on a colored woman in this city, for which he was duly fined fifty dollars by the Superintendent of the Freedmen's Bureau.

Up in Elizabeth city, the other day, a soldier undertook to quell a disturbance in which a ruffianly fellow was threatening the life of a freedman amid the applause of a crowd. He succeeded in arresting the fellow, who was, however, discharged without bail. But not so easy did the meddlesome "Yank" escape. He was immediately arrested for an assault and committed for trial. Judge Brooks, however, of the United States District Court, having undertaken to become his bail he was released. These things, of course, along with the occasional shooting of a negro, are too insignificant to find notice in the local papers. But they show that the work of reconstruction is going on briskly here, as well as in New Orleans and Memphis.

KARL.

—A young Englishman, who has been eking out a wretched existence in this city by begging from door to door and sleeping on the City Hall steps or among the docks, was a few days since informed of the death of a titled relative in the old country by which he is left heir to nearly $50,000.

WORDS OF VITAL INTEREST.—Will the thousands who read columns of frivolous verbiage every day devote FIVE MINUTES to the perusal of a few facts which concern them nearly, our text is HEALTH, and we will put our commentary into a nutshell. WEAKNESS is indirectly the cause of all sickness; for if nature be strong enough to resist the morbid influences which produce illness, of course they are powerless. Seek strength, therefore. Invigorate and regulate the system. When the quicksilver ranges from 80 to 90 degrees in the shade, the most athletic are enfeebled, and the weak are prostrated. It is at such a time that such an invigorant as HOSTETTER'S STOMACH BITTERS is urgently needed. What are the effects of this rare Vegetable Tonic? Would that all who have known its benefits could condense their experience into this paragraph. They would tell the healthy to protect their health they are to use this great safeguard against the debilitating influences. They would exhort the weak to discard all unmedicated and impure stimulants and cling to this wholesome and unfailing tonic and alterative as the shipwrecked mariner would cling to a raft in a stormy sea. They would, of dyspeptic pangs relieved, of appetite restored, of shattered nerves restrung, of headaches cured, of disordered functions regulated, dyspepsia dissipated, of miasmatic diseases baffled, of fever and ague cured, of liver complaints arrested, of heat, privation and toil defied, of hope reanimated, and cheerfulness restored. Such are the effects of HOSTETTER'S BITTERS. oc2

J. B. CAPEWELL,
WIND-GUARD AND AIR-HEATER FOR COAL OIL LAMPS.
PATENTED OCTOBER 25TH, 1855.
The merits of this invention consist in its protection to lamp chimneys, which are continually breaking while being used with the ordinary lamps. No sudden transition from heat to cold can crack or break these chimneys; the lamps can be carried with safety and without apprehension, in the most violent wind,—reflecting a steady light under all circumstances, and the fact that one-third less of oil is consumed, renders this a most valuable acquisition to house-keepers. Samples sent to any part of the U. S. on receipt of 25 cents, postpaid.

CHOLERA IN ALLEGHENY.
To the Citizens of Allegheny.

The Street Committee of Allegheny Councils would call upon the citizens of Allegheny to adopt such measures as are necessary for abating the ravages of the Cholera which now threatens to visit our city. Some of the leading physicians of the city have been consulted, and they recommend the use of chloride of lime in liberal quantities, especially in dark damp places; also, a thorough ventilation of our houses throughout the day, and at night to keep warm fires therein. The practice of THROWING UPON STREETS VEGETABLE MATTER of all descriptions, to lay there and decompose, when it exhales a poisonous vapor, is considered a frightful source of disease, and should therefore be discontinued, and all such refuse matter should either be burned or carried off. All ponds of stagnant water should be filled at once, as nothing contributes more to produce disease. The citizens should act at once; it is not yet too late. The disease, though in our sister city, has not yet visited us, and it will rest with us whether any of us fall victims to the scourge or not. Delay is fatal; if we do not adopt preventive measures now it will be too late when the disease has settled itself in our midst. Disinfectants and sanitary measures will then be useless, though possibly it might be checked to a certain extent, yet it would not be eradicated until it had done its work. The city authorities will do all in their power to enforce the sanitary laws of the city, but unless aided by the citizens themselves they are powerless for good, and we therefore most earnestly urge you to go at once to work, and thoroughly renovate, cleanse and purify the city.

C. C. SEELY'S
CHOLERA PREVENTIVE.

FOR REGULATING THE BOWELS, destroying Acidity in the Stomach, creating a healthy action of the Liver, assisting in the Secretion of Healthy Bile, giving Regularity to the Bowels, and assisting the System to a Healthy state, the PREVENTIVE is unsurpassed. It has been tried in thousands of instances, and has never been known to fail where the directions were strictly followed.

At this time, when we know not at what moment the fell destroyer may be upon us, nothing should be left undone that can be done to give the system a healthy action, and it is with a view to bring about this great desideratum, which of itself is the strongest bulwark against the attacks of cholera, that this medicine is offered to an intelligent public. Its action in cases of Diarrhea is magical. One bottle of the Preventive serves to check the complaint—two seldom required.

Seely's Cholera Preventive

Is the result of many years study and labor. The object of the proprietor in the first place was to produce a medicine that would assist digestion and relieve him from the terrible sufferings of Dyspepsia. Having attained this great end, he found that the mixture was an admirable regulator, and that in cases of diarrhea its action was wonderful. Incipient Diarrhea was cured by a single bottle, and even chronic cases were compelled to succumb to the powerful efficacy of this medicine.

Having by actual experiment in his own case, and that of his family, satisfied himself of its curative powers, he offers it to the public in full confidence that it will effect all that he claims for it.

Unlike the numberless quack nostrums that are foisted upon a too credulous public, it is not a universal cure-all, but is intended for a remedy, and is only efficacious in cases of Incipient Cholera, Diarrhea, Dyspepsia, or kindred ills, arising for the most part from imperfect digestion.

In full confidence of its restorative powers, it is now offered to the public.

No household should be without a supply of it.

Steamboats, Hotels and Travellers should always have it on hand.

It is easy to take, simple in its nature, and instantaneous in its effects.

Sold by all respectable druggists and country storekeepers. au27:28M

Pennsylvania Steel Association.

The Harrisburg *Telegraph* has the following: The works at Baldwin, near Harrisburg, named in honor of the late M. W. Baldwin, of Philadelphia, are progressing rapidly towards completion. The first stone was laid in May last, and over half an acre of ground is already covered by substantial buildings, while the machinery for blowing, handling and manufacturing the steel is fast approaching completion, at the machine shops in Philadelphia and New York. This machinery is of a most stupendous character and massive. The blowing engine alone, now being forwarded from the works of Messrs. Merrick & Company, have each a power of over eight hundred horses.

S. M. Fulton, Esq., is the President, Matthew Baird, Esq., Thomas A. Scott, Esq., J. Edgar Thompson, Esq., Robert H. Lamborn, Esq., are the Directors. The company also numbers among the stockholders some of the most prominent capitalists of the country.

The articles to be manufactured by this association consists of ingots, axles, rail, tire, shafting, large and small forgings, boiler plate, &c. It promises to be one of the most important enterprises for the railroads and machine shops that have been projected in this country for a long time. The above named articles are now supplied from England almost exclusively. It is thought that the Pennsylvania Steel Association will, by next spring, relieve the country from its present dependence on England of steel.

EARLY TELEGRAMS.

FROM NEW YORK.

Seventh Regiment and the Paris Exposition—Munificent Subscription—The Billiard Championship—Dion the Victor—Protestant Episcopal Church Mission.

NEW YORK, October 6.—A merchant of this city proposes that if the Seventh Regiment should be sent to the Exhibition in Paris next year, the commercial men of the city ought to contribute to defray the expenses of the trip, and he heads the list with ten thousand dollars.

A *Herald's* Montreal special says: In the billiard match between Dion and M'Devitt, for the championship of America and the Provinces, Dion won at twelve o'clock last night by two hundred and twenty-six points.

The American Board of Missions of the Protestant Episcopal Church, met again yesterday, and continued their deliberations. Considerable discussion took place with regard to the mission in Greece. The Bishop of Colorado read an important paper on the condition of religion in that State. The business of the Board having been finished, they adjourned at a late hour.

Freedmen's Affairs.

NEW YORK, October 6.

A *Herald's* Washington special says: The Commissioner of the Freedmen's Bureau has received reports from Tennessee, Alabama, and Arkansas, for the month of August, all of which continue to give highly encouraging accounts of the return of peace and tranquility to these States. The freedmen themselves are generally employed and industrious, and are gaining more confidence in the whites. Everything indicates a desire on the part of the people to welcome the day that will restore quiet and harmony to that section of the country. Among certain classes the old antipathy to the Freedmen's Bureau still exists, and when disposed to resist the most distasteful requirements to the law, many of them evince a decided dislike of any interference on the part of the officers of the Bureau.

The Assistant Commissioner of the Bureau in the State of Alabama reports that during the month of August one hundred and ninety-one thousand seven hundred and forty rations were issued to fifteen thousand and fifty-nine refugees, at a cost of $34,275. Ninety-two thousand five hundred and twelve rations were issued to six thousand and ninety-eight freedmen, at a cost of $16,018.

The Assistant Commissioner for Arkansas states that in the same month he issued six thousand, eight hundred and fifty-three rations to four hundred and eight freedmen, and five thousand and forty-eight rations were issued to four hundred and fifty-nine refugees. The total number of rations issued were eleven thousand nine hundred and one, to eight hundred and fifty-seven persons, at a cost of $1,517.

Hartford Bank Robbery.

NEW YORK, October 6.—A *Herald's* Hartford special says: Fuller, the Teller of the Hartford National Bank, who was charged with the robbery of $50,000 worth of bonds, belonging to Royal Wilcox, a merchant of that city, was arrested by the latter on a civil suit yesterday, and released on $20,000 bonds. He was again arrested during the day, on a criminal suit by the Bank, and placed under $20,000 bonds to appear in the Police Court to-day. The compromise between the interested parties that was expected yesterday has failed.

An Indian Murder.

NEW YORK, Oct. 6.—A *Tribune's* Topeka, Kansas, special says: Frank Kirby and Charles Smith, stock tenders for Holliday's Overland Stage Company, were murdered by Indians on Saturday last at Chalk Bluff, a station on the Smoky Hill route, one hundred miles west of Fort Ellsworth.

THE NEW

Spring and Summer Medicine,

FLUID EXTRACT

SARSAPARILLA,

COMBINED WITH

Iodide of Lime,

PREPARED FOR

G. W. PETTES, BOSTON,

BY

James R. Nichols & Co.

MANUFACTURING CHEMISTS,

MANUFACTURERS OF THE

ELIXIR PERUVIAN BARK

WITH

Protoxide of Iron,

Which has become so favorably known as a

Tonic and Restorative,

By Physicians and Invalids in all parts of the country.

The new preparation, "SARSAPARILLA IN A COMBINATION WITH IODIDE OF LIME," presents one of the most prompt alterative agents in a form capable of exerting full action upon the system, and this in minute and pleasant doses. It is conceded that the alterative, resolvent, or tonic effects of Iodine, are exerted most decidedly when associated with other alteratives, in combination and the Sarsaparilla seems to fulfil perfectly all the favorable requisitions.

The first effect usually observed when "SARSAPARILLA WITH IODIDE OF LIME" is taken, is an increase of appetite, showing that it has tonic properties of a marked character. Its alterative effects are manifest in its ready combination with the blood and tissues. Pale, feeble women and children improve rapidly under its use, and the vital functions assume a healthy condition.

It is admirably adapted to a large number of chronic or acute affections peculiar to children. It is suited to them, both by the mildness and efficiency of Medicinal effect and the pleasant attractive form of the remedy. It may be given for a long period where constitutional influences are desired, and no repugnance, or disinclination to take the syrup, encountered. In White-swellings, Hip-joint Disease, and Distortions of the Spine, it should be given persistently, in moderate doses, until relief is obtained.

In the Spring of the Year, and during the Warm Weather,

The accumulation of morbid matters in the system seems to become manifest and very troublesome. Lassitude, Headache, Boils, [illegible], Loss of Appetite, Pains in the Joints, Indigestion, etc., are very common. Nothing ever devised is better adapted to exterminate or drive off these affections than this new combination of SARSAPARILLA WITH IODIDE OF LIME.

No preparation like it, or which approximates to it as an

Alterative, or Blood Purifier,

has ever before been placed within the reach of invalids. Indeed, it is an entirely NEW and SCIENTIFIC combination to no remedy resembling anything hitherto employed.

The opinion of medical men concerning it, the description of its chemical character, therapeutic value, manner of use, etc., are given in a circular, which can be had at the store of any and all first-class Druggists.

FINANCE AND TRADE.

SATURDAY, October 6, 1865.

The New York stock quotations to-day, were as follows: Gold, 149¼; 1881's, 112½; 5-20's, old, 112⅝; do new, 109½; 10-40s, 99¼; 7-30's, 2d issue, 106; Michigan Southern R. R., 88½; Cleveland & Pittsburgh R. R., 89¼; Pittsburgh Fort Wayne & Chicago Railroad 108⅝; Erie, Railroad, 91⅝; Western Union Telegraph Company, 54⅛; Chicago & Rock Island, 107¼; Chicago & North Western, 43½; do preferred, 73⅝.

—While gold is up to 149¼ here, and Five-Twenties at London are quoted at 70¼, which is one or two per cent lower than previous rates, it is a circumstance worthy of note that in our own markets these securities are advancing. With the professed confidence of Europeans in the stability of the United States Government, it is rather singular that its securities are not yet higher in their estimation. The actual current revenue of the United States Treasury is over $500,000,000 per annum, and its expenditures, including the interest of the public debt and the payment of $100,000,000 of the principal thereof a year, are less than $400,000,000. The Treasury holds nearly $90,000,000 of coin, and the banks possibly ten or twelve millions more. The present reduced rate of interest of the Bank of England to 4½ per cent, and the advance of money, would favor United States stocks abroad. But their steady appreciation at home demonstrates one thing, that they are, to some extent, independent of foreign influence, and also that the bonds had better be held here, and their usufruct enjoyed by our own citizens instead of exporting them to be a drug upon foreign markets, or sell for less than 75 cents in the dollar when they should be worth par at least.

—A comparison of the statement of the public debt for September, rendered 1st instant, with that of August, rendered 1st September, shows a reduction of $22,346,226 for the month. The total debt is now $2,573,336,941. The actual amount of coin in the Treasury is $86,259,909, and currency, $41,953,858. The coin in the Treasury has increased nearly ten millions and the currency has fallen off $14,[illegible].

—The New York Chamber of Commerce has adopted a resolution to memorialize Congress to repel the export duty on cotton. It was argued that the duty amounted to a premium for the production of cotton in other parts of the world, and its tendency was to foster and establish its growth, so that it might fill the markets to the exclusion of our own. In view of the depressed condition of affairs in the South, where material prosperity had been so nearly destroyed, it was the dictate of sound policy to make no discrimination against the great staple crop of that section of our country.

—The Chicago *Tribune*, of Saturday, says: The money market presented no new features to-day. The country banks continue to check freely, though hardly to the same extent as they did during the previous three or four days. The demand on produce account is, if anything, increasing, owing to the improved receipts of grain, and the inquiry in the way of mercantile loans is fully equal to the ability of the discount houses to meet it. First-class customers are accommodated at 10 per cent, but business paper is closely discriminated, and none but what is technically denominated as "gilt-edge" is acceptable. In the open market good names sell at 1@1¼ per cent per month, and less desirable signatures at 1½ per cent.

PITTSBURGH MARKETS.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, October 6, 1866.

The produce markets have been moderately active during the week, though there is still plenty of room for improvement. Transactions are restricted in some articles, owing to light stocks, though indeed, stocks of all kinds are very much reduced, and in consequence of the uncertainty and want of confidence which prevail in commercial circles, the policy of our merchants generally seems to be to keep supplies of goods reduced, rather than increase them.

GRAIN—Wheat is in demand and there is little or none in market. We can report a sale of 1 car choice Michigan Amber at $3. Barley is in demand, but like Wheat, there is none in market. Corn may be quoted at 90 to 92, on track; and 95 to $1 for small lots from store. Oats steady at 49 to 50, from store. No movement in Rye.

FLOUR—There is a regular jobbing demand for Flour, and while the market is firm prices remain unchanged. We quote at $12 to $12½ for Spring Wheat, and $12½ to $13½ for Winter Wheat brands. Rye Flour is selling in a small way at $6,50 to $6,75.

PROVISIONS—Bacon is dull and a little weak, though prices remain nominally unchanged. We quote at 17½ to 17¾ for Shoulders; 19 to 19½ for Ribbed Sides, and 25 to 26 for Sugar Cured Hams. Lard is dull, with a drooping tendency. Mess Pork is quiet and unchanged.

BUTTER—Is coming in more freely, and as the stock is beginning to accumulate, the market is a little weak, and prices, if anything, are a shade lower. Prime to choice Roll cannot be quoted above 33 to 35.

EGGS—Firm, and in good demand, and the late advance is well sustained: fresh packed selling readily at 27 to 28.

CHEESE—Is reported steady at 17 to 18 for Western Reserve; 18 to 19 for Hamburg, and 20 to 22 for Goshen, as to quality.

MILL FEED—Sale of 1 car prime white Middlings at $1,90. Bran is dull, while Shorts and Seconds are in fair demand at $1 to $1,10 for the former, and $1,40 to $1,50 for the latter.

POTATOES—Firm, and, if anything, a shade higher; prime Jerseys being quoted at $5 to $5.25 per bbl.

APPLES—Demand rather better, and while the market is more active, prices remain unchanged at $2 to $3 per bbl.

DRIED FRUIT—Quoted at 14 for Apples, and 20 for Peaches—in small lots.

FEATHERS—Quoted at 80 to 85.

PITTSBURGH PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE,
SATURDAY, October 6, 1866

CRUDE.

The market was remarkably quiet and a little dull to-day, and we have but two sales to record, 1000 bbls at 14, and 100 "Smith's Ferry" at 13½, and quotations for good merchantable oil may be fairly given at 14, bbls returned and in bulk; and 19, packages included. During the early part of the week there was quite a spirited demand, but subsequently, owing to adverse reports from the east, as well as the fact that the great majority of our refiners have purchased sufficiently to cover all their contracts of Refined, the market has ruled a little weak, and the transactions have been comparatively light. The receipts have also fallen off considerably, and as the stock of crude in first hands is pretty well reduced, there is no disposition on the part of holders to force sales.

REFINED.

There was an improved demand for bonded oil during the early part of the week, and that, too, at a slight advance, but since then, the market has been dull and weak, and the advance was lost. Then sales were made at 36½ to 37, free on board cars here, and 43 to 43½, delivered in Philadelphia, and refusals asked at 44; while, to-day, there is little or no inquiry, and we quote nominally at 35½ to 36, here, and 42 to 42½, delivered in Philadelphia. Yesterday, there was a sale of standard white at 43¾, and to-day, a similar offer to sell was made, without meeting with any response. Free oil is dull and unchanged; standard brands may be quoted at 56 to 57.

ARRIVALS.

We have but a single arrival to report today, 307 bbls for Fisher & Bro. But twenty inches reported in the channel at Oil City to-day, and falling, and navigation is again confined to small boats, the river being entirely too low to run bulk boats.

New York Stock and Money Market.

NEW YORK, Oct. 6.—Stocks heavy. The following were the closing prices at 4:30 P. M.: O. & M. Cert., 32⅝@32¼; W. U. Tel., 54⅝; N. Y. C., 113⅝@113¾; Erie, 90⅞@90¾; Hudson, 115@115½; Mich. Cen., 111@111½; Mich. South., 87½@87¾; Ill. Cen., 127@128; C. & P., 88@88½; C. & T., 121@123; R. I., 106¼@106⅜; N. W. 42¾@51; do. pref., 72⅝@72¾; Ft. Wayne, 107⅞@108¼.

The *Post's* money article says: The Loan market is easy, but shows a little more activity, the rates remaining at 4@5 for call loans, and 5@7 for discounts. The stock market is irregular and depressed. Governments are firm without much inquiry. Railroad shares are lower, and the main object with many of the holders seems now to be to realize. Illinois Central and Fort Wayne are the strongest on the list. After the Board the quotations were: New York Central, 112¾; Erie, 91¾; Hudson River, 122; Reading, 43; Michigan Southern, 87½; Pittsburg, 88; North Western, 43; Chicago and Rock Island, 106¼; Ohio and Mississippi Certificates, 32¼. Foreign Exchange is dull as usual on Saturday; bills at sixty days on London are quoted at 106¾@107 for commercial, and 107⅜@108 for bankers'; do at short sight, 108⅜@108⅝.

Tide-Water Receipts of Produce.

The quantity of flour, wheat, corn and barley left at tidewater during the first week in September, in the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865........	37,600	230,700	1,166,900	233,000
1866........	4,700	181,100	1,279,800	76,500
	Dec. 32,900	Dec. 49,600	In. 180,600	De. 156,500

The aggregate quantity of the same articles left at tidewater from the commencement of navigation to the 30th of September, inclusive during the years 1865 and 1866, was as follows:

	Flour.	Wheat.	Corn.	Barley.
1865....	490,600	5,733,700	10,433,900	573,100
1866....	120,100	2,261,300	19,189,900	312,600
	Dec. 283,700	Dec. 3,472,400	In. 8,687,000	Dec. 230,500

By reducing the wheat to flour, the quantity of the latter left at tidewater this year, compared with the corresponding period last year, shows a deficiency equal to 1,064,980 bbls. of flour.

Chicago Market.

CHICAGO, October 6.—Flour quiet and declined 10@15c. Wheat declined 2@3c. sales at $2,08@2,10 for No. 1, and $1,70@1,93½ for No. 2. Corn quiet and declined 1c. sales 62@63¼ for No. 1, and 61½@62 for No. 2. Oats firm and held at 37 for No. 1 and 23½ to 35 for No. 2. Mess Pork, $32,00 to 32,25. Freights advanced ½ cent.

Baltimore Cattle Market.

BALTIMORE, October 4.—Beef Cattle—The offerings at the scales during the past week amounted to 1280 head, against 1352 last week. Prices to-day ranged as follows: Old cows and scalawags $4@4,50; stags and small heifers $5@6; common steers $5 to 6,25; stock cattle $6; fair beef cattle $6,50@7; good $7,50, and prime $7,75 to $8 per 100 lbs, with a few at a shade better prices. The market closed very dull. Sheep—There was a large supply of thin sheep on sale to farmers this week, which sold at $2,75 to $3 per head; sales were made at 5¼ to 6¼c per lb gross, for fair to good fat sheep. Hogs—The supply has been fair and prices firm this week; sales at $14@15 per 100 lbs nett.

Buffalo Market.

BUFFALO, October 6.—Flour dull. Wheat easier; morning sales were 20,000 bushels, at $2,05 for No. 2 Chicago and Milwaukee Spring, closing p. m. 7,000 bushels on previous terms. Corn closed dull at 81 to arrive, none of consequence on the spot, the demands were mainly for freights. The Oats market is bare. Barley easier and less active. Rye quiet at $1,02 for No. 1 new Chicago. Lard 16½. Whisky 2,40.

Oswego Market.

OSWEGO, October 6.—Flour steady; $11,75 for No. 1 Spring; $13,25 for red winter; $14,25 for white; $15,00@15,25 for double extra. Wheat quiet; no sales. Corn quiet; No. 1 Illinois held at 89c. Barley dull. Canal freights unchanged.

RIVER NEWS.

The river continues to recede steadily at this point with about three feet in the channel by the marks last evening. The weather yesterday was cloudy and warm, with indications of rain.

The Quickstep and Grey Eagle arrived on Friday night, the former from Cincinnati, and the latter from Parkersburg. The Bayard, from Parkersburg, was due here last night, and the Julia, from Portsmouth, may be expected in to-night.

The W. A. Caldwell for Arkansas river, Rob Roy, R. C. Gray and Quickstep for Cincinnati include the departures. The Forest City went out in place of the Grey Eagle, as the water is too low for the latter boat.

The steamer Bayard had not arrived up to last evening, but will probably be found at the wharf this morning.

The fine side wheel steamer Ezra Porter is the only boat loading for New Orleans. She will leave to-morrow.

The steamer Kenton has commenced loading for St. Louis, and will leave forthwith.

The staunch steamer Bertha is receiving for Cairo and St. Louis and takes her departure at an early day.

The Monongahela packets continue to do a good business, and arrive and depart promptly on time daily.

The America, Kate Robinson and Kate Putnam left Cincinnati for Pittsburgh on Thursday. The Cincinnati, *Commercial*, of Friday, says:

Col. J. L. Vance, of the Cottage No. 2, took unto himself, yesterday, one of the fair belles of Gallipolis, Ohio—a grand-daughter of Chas. Creuzet Esq., of that place. We congratulate the gallant Colonel on his good fortune........ The Argosy No. 3 leaves for Pittsburgh this evening, positively............Captain John N. Bollinger passed through the city yesterday, en route from Cleveland to St. Louis, having been in attendance at the Railroad General Ticket Agents' Convention, at Cleveland.

A Cairo dispatch to the Louisville *Courier*, under date of October 31, says:

The steamer Greenback brought down Mr. W. Milner Roberts and party who have been making a survey of the Ohio river with a view to its improvement as ordered by Congress. Mr. Roberts has gone to St. Louis and will meet the Greenback at Evansville, for which point she started about noon.

The estimated length of the Ohio river, according to Mr. Roberts' statement, is 1,900 miles.

The same paper says: The famous tow-boat Ajax, belonging to Watson Bro's., starts to New Orleans to-day with 250,000 bushels of coal.

The fleet of coal boats that were torn loose at Cincinnati last week by the freshet were rather roughly used, and eleven of the number were sunk. That involved a loss of about $30,000. The coal was chiefly from the Syracuse and Hartford city mines.

We clip the following items from the Cincinnati *Commercial* of Saturday:

Arthur Hurd, late of the Missouri, is in the city prospecting......An arrangement was made, yesterday, between the Nightingale and Emma No. 3, for each boat to load in turn. The Nightingale will commence loading to-morrow, and is the first boat leaving for St. Louis. She will be followed by the Emma No. 3......The Nora, Captain Samuel Shuman, leaves for Pittsburgh this evening......In commemoration of the wedding of Colonel J. L. Vance, of the Cottage No. 2, a sumptuous dinner was served up, yesterday to the relatives and friends of the of the Colonel and his fair bride......Among the Argosy's passengers we notice Miss Kate Fisher, Miss Blanche De Bar, and their performing horse "Wonder." They are destined for Philadelphia...... The Armadillo, from New Orleans, is bringing the freight recovered from the sunken steamer Linnie Drown......Captain W. G. Coffin will commence loading the New York for St. Louis, next week......The Superior, Captain J. V. Throop, has arrived from Evansville. She will be dismantled, and her machinery transferred to the new packet for the Evansville and Cairo trade.

The Cincinnati *Gazette* of Saturday says:

Wheeling and Cincinnati packets R. R. Hudson, C. E. Hillman, Potomac and Edinburg, leaving Cincinnati respectively on Mondays, Tuesdays, Fridays and Saturdays, will take all Steubenville and Pittsburgh freights through with dispatch, connecting at Wheeling with the daily Wheeling and Pittsburgh packets Bayard, Grey Eagle and Leni Leoti, giving through receipts at the customary rates. This is a reliable arrangement, and insures promptness and dispatch. George L. Johnson & Co are agents for all the above boats.

A case of fiveyears' standing cured by DR. KEYSER'S PECTORAL SYRUP

PITTSBURGH, January 11, 1860.

DR. KEYSER:—My wife has been afflicted with by cough and difficulty of breathing for five or six years, which, for several years back, had gradually increased in violence. The complaint has been hereditary, and she had been treated by several physicians without any relief. In this state of her case procured some of your PECTORAL COUGH SYRUP I bought, the first time, a fifty cent bottle, which relieved her very much; I then called and got a dollar bottle, which cured her entirely, and she has now no trace of the former disease, except weakness. I would also state that I used the medicine myself for a cold and cough. The medicine cured me by taking one dose. I express my entire satisfaction with the medicine, and you are at liberty to publish this if you desire to do so.

WM. WILSON,
Alderman, Fifth Ward

PITTSBURGH, April 24, 1857.

READ THE TRUTH.—DR. KEYSER:—I have a daughter who has taken several medicines for a bad cough without benefit, among them Ayer's Cherry Pectoral. I purchased from you a bottle of your Pectoral Syrup and before she had used half a bottle she was relieved. The second bottle cured her entirely of her cough.

JOHN DARIN,

PITTSBURGH, December 31,

A GREAT CURE BY DR. KEYSER'S PECTORAL SYRUP. I live in Peebles township, Allegheny county. I had a cough and spitting, which commenced about the 4th of February last, and continued eight months. I employed the best physicians in the country, and my cough continued unabated until early in October. At that time I was advised to try your Pectoral Cough Syrup, which I did, and after I had taken one bottle I was entirely free from the coughing and spitting. I had despaired of ever getting well, and I think it should be known that this valuable remedy will do for others what it has done in my case.

JOHN C. LITTLE,
Witness R. P. KERR. Peebles township.

PATTON TOWNSHIP, April 14, 1858.

A WONDERFUL CURE.—Some time ago an old neighbor of mine was very ill with a bad cough, which every one supposed to be consumption. His relatives told me that he had taken every remedy they heard of without benefit; his brother came to see him die, and all were confirmed in the belief that he could not live. I had about the third of a bottle of your Pectoral syrup, which I gave him, and it entirely cured him, to the astonishment of all. What makes the case more remarkable, is the extreme age of the man, he being about eighty years old. I have no doubt the Pectoral saved his life.

JOHN McGINNIS.

DR. KEYSER'S PECTORAL SYRUP IN BLAIRSVILLE.—Please send me another supply of your valuable Pectoral Syrup. Almost everybody around us has the cold, and are enquiring for "Dr. Keyser's Pectoral Syrup." We have sold sixteen bottles this last week, and are now entirely out. Mr. A. Alter and Mr. P. Maher, both of Blairsville, Pa., told me they would not be without it in their families. In fact, all who use it once want it again.

Yours, respectfully.

PITTSBURGH, November 18, 1858.

DR. KEYSER:—Although not an advocate of Patent Medicines, in general, it affords me pleasure indescribable to recommend your PECTORAL SYRUP. As a medicine, it is well worthy the attention of any person who may in any manner be afflicted with coughs, colds and hoarseness of any kind, and for the peculiar qualifications for removing all that disagreeable sensation attending a severe cold.

I have been, more or less in my life, affected with the severest of colds and hoarseness. At times my throat would become so closed as to prevent my speaking above a whisper, and by taking a few doses of the above Syrup it would relieve me entirely.

In recommending this medicine, I must unhesitatingly say that it is the best remedy I ever found, purporting to cure the above, nor should any family be without this remedy for diseases so prevalent.

Yours, most respectfully,
EDWARD J. JONES,
Cashier Citizens' Deposit Bank.

STEUBENVILLE, Ohio, March 14, 1865.

I have used Dr. Keyser's Cough Syrup for a bad cough of several years standing, and can cheerfully say it is the best medicine for the same that I have ever taken.

J. W. PRICE.

COL. PRATT AND DR. KEYSER'S PECTORAL SYRUP.—DR. KEYSER—Dear Sir: Excuse the delay of my acknowledging the excellence of your Pectoral Cough Syrup sooner. I take great pleasure in saying that it is all you say it is. It knocked the noise out of my cough, and the worst one I was ever afflicted with. I have not used more than one-half of the bottle, and I can and do wish that all who are afflicted would give it as fair a trial as I have done, and they will be proud to say, "It is no quack medicine." I would not suffer another such an attack for any consideration, or at any cost. I am confident I can breathe more freely than I ever did. I shall always acknowledge a debt of gratitude for inventing so excellent a remedy. You are at liberty to use my name in this regard as you think proper.

ANOTHER NEW CERTIFICATE.—DR. KEYSER'S PECTORAL SYRUP.—I had been troubled with a cough and cold for several weeks—so bad was it that I could not sleep. I had the advice and prescriptions from three of the best physicians in the city, whom I could name, but do not do so. I finally procured a bottle of your Pectoral syrup, which cured me entirely.

"STOP THAT COUGHING."—"How can I do it?" Go to Keyser's, on Wood street, and get a bottle of his Cough Pectoral, and if that don't cure you, your case must be desperate indeed." This is a specimen of the colloquy one hears every day in cold-catching periods of the year. And we can, from actual experiment, cheerfully concur in the adviser's admonition as above, for we have tried the "Pectoral," in a most stubborn case, with entire success. Near two weeks ago we went to Pittsburgh, with one of the most distressing, contrary, mulish, unsubduable coughs we ever experienced since our advent upon this mundane sphere. We coughed steadily and laboriously for one whole week, in hopes of tiring it out, but it was no go. In fact, it seemed rather to have improved by practice, and to have acquired strength, potency and distressibility by the operation. In this stage of the siege, we coughed our way to Keyser's, No. 140 Wood street, procured a dime cent bottle of the "Pectoral," took it according to directions, and in forty-eight hours we were master of the field, the enemy having unconditionally surrendered, after a brief, but unequal conflict with so formidable ad adversary as Keyser's famous Cough Pectoral.—*Brownsville Clipper, Dec. 14, 1859.*
